## SUMMARY

Fourth-year Computer Engineering student at Ankara Yıldırım Beyazıt University with a strong foundation in software development and a focus on Object Oriented Programming and Machine Learning. Experienced in developing real-world applications such as Mobile ADAS, Traffic Sign Recognition, and Vehicle Detection using YOLO. Proficient in Python, C++, and Java, with a solid understanding of data analysis and object-oriented programming. Passionate about building innovative technology solutions and continuous learning.

## TECHNICAL SKILLS

- Programming Languages:** Python, Java, C, C++, C#
- Machine Learning:** YOLO, TensorFlow, Pandas, Matplotlib
- Frameworks & Tools:** ASP.NET Core MVC, Unity, Git/GitHub
- Web Technologies:** HTML, CSS, JavaScript
- Languages:** English (Professional)
